for offering them expires, and more interest wil be taken as the time for selection draws nearer.

Some of the sites now considered are: A corner of the city property on Academy avenue and Center street, across from the Knight building. Petitions asking the city council to donate a site there are being circulated and largely signed.

Many citizens favor a site on the tabernacie block, the northwest corner and have signified a willingness to purchase it from the Church authorities, if it can be obtained. They argue that this location is so nearly central that no objections can be found with it on that score by citizens in any part of the city.

Options are being taken on ground north of the postoffice, corner of Academy avenue and First North street, and if the necessary arrangements can be made by the parties intended a site will be offered on this corner. The Martin corner across the street west, is also favorably considered and may be offered. A site will also be offered on the corner of Center street and Third West street, on the vacant lot opposite Taylor Bros. furniture store, if the people owning the land there can be united in the arrangements precedent to an offer. If not some other good corner in that neelghborhood will be secured and an offer made of it.

The origin of the fire is not definitely known, but it is supposed that it was caused by the carelessness of Houston himself in handling matches, as he was in an intoxicated condition, and the sole occupant of the house at the time.

His wife and il-year-old son had gone to Ping. Ore. on a visit to relatives, while he stayed to work assessment upon certain mining claims, which he held. Immediately upon the departure of his family, three weeks ago, he began drinking and has been in an intoxicated condition ever since.
